Clarification: The 2012 Tier 2 report for the site is in the State database; however, it has not been added to E-Plans. Ammonia Nitrate is listed in the 2012 Tier 2 report.

2011 Tier 2 report is in E Plans. It does not list Ammonia Nitrate, but lists some pesticides (e.g. dimethoate, Lorsban, and yuma).

Sam/Responding to your question: "Did e-Plan have the ammonium nitrate and other pesticides listed?"

Yes, ammonium nitrate was in the 2012 Tier II report. (In addition to Grazonnext, Reclaim, Remedy Ultra, Surmount, Yuma.)
